BARRACUDA PLATFORM

AQUATIC MOBILITY FOR MILITARY VEHICLES

UNLOCK AQUATIC MOBILITY FOR GROUND-BASED MILITARY VEHICLES

The Barracuda platform by Nordic Deployment revolutionizes how military vehicles navigate aquatic environments, eliminating the need for constructing bridges or deploying M3 amphibious bridge vehicles.

ROBUST AND RELIABLE

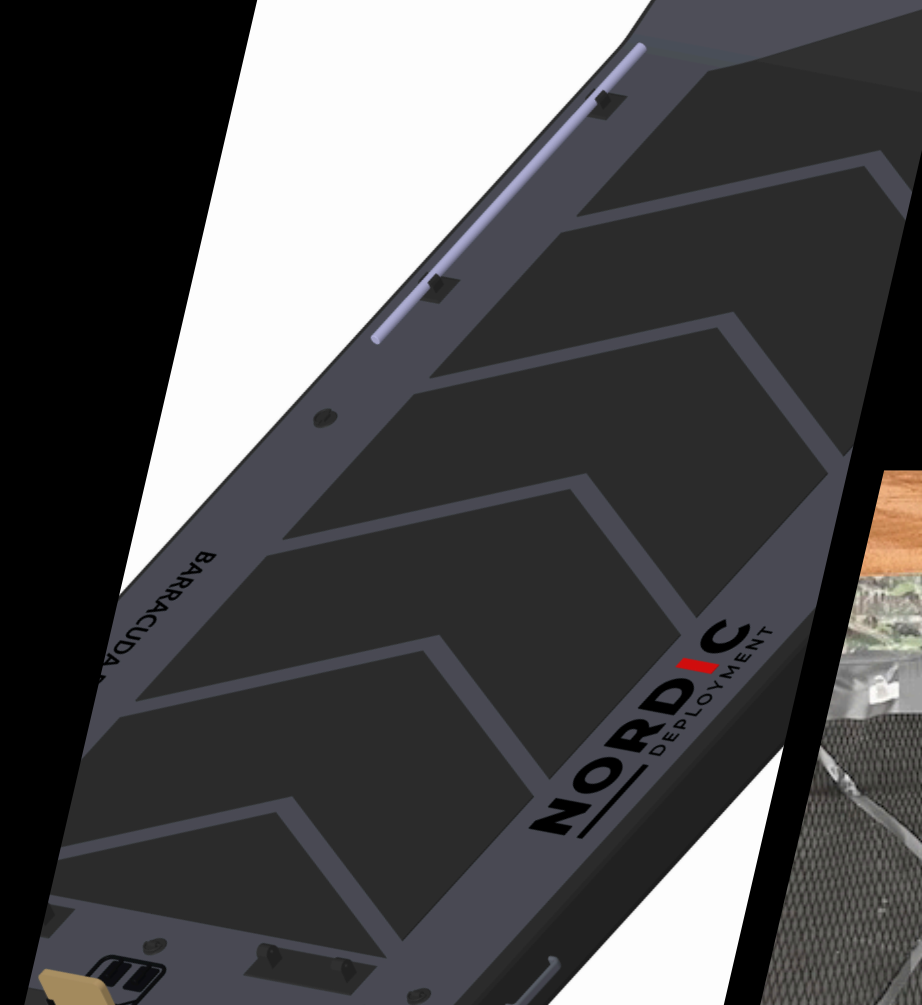

Design Constructed from a rigid inflatable structure, the Barracuda platform ensures your vehicle remains afloat while on board. Whether you need to transport a vehicle of any size or weight. Nordic can design and construct a customized Barracuda platform to meet your specific requirements.

EASY DEPLOYMENT AND OPERATION

1. Remove the Barracuda platform from its robust travel bag.
2. Roll Out the platform.
3. Install the Nordic pump and inflate the platform.
4. Set Up the ramps and motor on the included motor mount.
5. Drive your vehicle onto the platform.
6. Travel across any calm to semi-calm waterway, river, lake, etc.

With the Barracuda platform, seamlessly achieve aquatic mobility, enhancing operational efficiency and strategic flexibility. Experience the future of military logistics with Nordic Barracuda platform.

NORDIC
DEPLOYMENT

THE BARRACUDA PLATFORM

Introducing the Barracuda Platform, which offers a variety of models tailored to diverse operational needs. Available in multiple variations including the P8, P10, P15, P18. Each variant combines exceptional strength and portability.

THE P05/30 MODEL

Measures 5,0 x 3,0 meters, weighs 60 kg, and supports a 2,2-tons payload capacity, ideal for Special Field Vehicle.

THE P20/30 MODEL

Measures 9,0 x 4,5 meters, weighs 160 kg and supports a 9-tons payload. Offers extensive support and handling an indispensable for versatile and portable heavy-duty operations. Special Field and Logistics Vehicle.

General Specifications	P05/30	P10/30	P20/30
Vehicle Type	Field Vehicle	Field Vehicle	Mothership Heavy Duty Vehicle
Platform Size (Meters)	L5 x W3 x T0.3m	L6 x W3 x T0.3m	L9 x W4.5 x T0.3m
Payload Capacity (Tons)	2.2	4.5	9
Specific Weight (Kilos)	60	63	160
Engine Type (Recommended)	Electric/Gasoline	Electric/Gasoline	Electric/Gasoline

NATO Approved Specifications	P10/20	P15/20
Vehicle Type	Field Vehicle	Field Vehicle
Platform Size (Meters)	L4.4 x W2.3 x T0.2m	L5 x W3 x T0.2m
Payload Capacity (Tons)	1.2	2.5
Specific Weight (Kilos)	38	45
Engine Type (Recommended)	Electric/Gasoline	Electric/Gasoline

NORDIC DEPLOYMENT ENGINE RECOMMENDATION	
Impulse Power 10	6.5 kW / 9 HP electric outboard, adjustable height with tiller
Impulse Power Batt Package 48V 3kWh - Dual	3 kWh / 60 Ah IP 67 LIIO energybank with dual connectors for expansion. 25 kg inkl 5 A charger
Mercury F6MH Petrol	6 kWh / Integrated Fuel tank 0.3 gal / 1 L, Four Stroke 6 HP. 57 Lbs / 26 kg

QUIET AND COMPACT ELECTRIC MOTORS FOR MARITIME USE TOGETHER WITH LEADING BATTERY TECHNOLOGY

**ENGINE: 6,5 kW(9HP)
 BATTERY: 3 kWh**
